

Deputy Commissioner of Information Technology

Town of North Hempstead seeks a Deputy Commissioner of Information Technology. Candidate must be hands on Web and Application developer with project management experience. The Deputy Commissioner will assist the Commissioner in managing projects, vendors and budget. The candidate will help trouble shoot, maintain and improve the Town's various specialized software programs. The candidate will be responsible for maintaining an internal and external web presence, maintaining the integrity, performance and optimization of the Town's data in a SQL environment, and various application development projects.

Requirements:

- Experience in developing ASP.Net, JavaScript, VB.NET, HTML, XML, CSS, Dreamweaver, e-forms
- Experience with SQL server 2008 and above.
- Report design and development using Crystal Reports and SSRS.
- Advanced Microsoft Office skills particularly in Excel and MS Access.
- Develop and maintain software documentation, testing plans, and user guides.
- Strong troubleshooting skills
- Ability to communicate well with colleagues at all levels.
- NYS Driver's License
- Bachelor's Degree and 3 years' experience or equivalent.

Salary up to \$75K DOE
