

ADDENDUM NO. 2

NAME: SWMA005-2020-Removal and Recycling of Scrap Metal

DATE: August 12, 2020

TO: All Prospective Proposers

1. Who is the current bid holder?

The Authority currently uses Gershow Recycling.

2. The bid states “AMMB Value of Scrap Metal” which encompasses a lot of different metals. Is there a specific Market Index that we should be using?

The Authority’s loads are generally mixed, and the volume of scrap metal is relatively low over the course of the year. As such it is impractical to separate loads into their component metals and send separate loads. As the vast majority of metal can be categorized as light iron, assume the use of that value when submitting a bid. However, bidders should keep in mind that a small amount of other more valuable metals may be contained in each load. As such, bidders should consider this when submitting their percentage bid.

3. Is there any breakdown on how much tonnage was purchased per load over the course of 2019? Average weight per container?

In 2019, the Authority sent seven loads, with weights (in US Tons) of 11.75 tons, 10.60 tons, 10.94 tons, 11.34 tons, 12.14 tons, 9.29 tons, 9.44 tons.

4. Can you provide the results for the last bid?

Since the last bid was done a number of years ago, the results of that bid should not be relevant today.
