Questions and Answers for the Request for Proposals for Planning Services Streetscape Design - Main Street, Port Washington

RFP Posted: December 23, 2014
Q&A Deadline: January 6, 2015
RFP Deadline: January 23, 2015

January 13, 2013

The Questions and Answer Period for the Request for Proposal for Planning Services: Port Washington Streetscape Design Program has ended. The following are the questions received during this time period and the corresponding answer:

- Does the Town have a construction budget?
This Request for Proposal is for design and planning. The Town has not determined a construction budget yet.
- Would modifications to the street cross section and alignment be considered?
A modification such as a pedestrian bump out to shorten crossing distance, as shown in the Town's Complete Streets Policy, is one of the appropriate tools. All improvements are limited to the existing Town Right of Way
- Does the project scope include new roadway and sidewalk surfaces?
It is not the intent of the project to replace all existing surfaces. However, a targeted surface treatment in furtherance of a safety or aesthetic goal is an acceptable suggestion.
- Are additional drainage improvements anticipated?
It is not the Town's expectation to redesign all drainage in the project area.
- What plans exist covering the project area?
The Town completed and adopted a Complete Streets Policy and a Shared Vision Plan for Port Washington. The Town also adopted a Business Overlay District that is now part of the Town Zoning Code. The civic group Residents for a More Beautiful Port Washington prepared a plan in 2012. This plan was not adopted by the Town and the Town was not part of the preparation of this document.
