Re: **Addendum to this** Request for Proposals
Professional Engineering Services associated with the design and rehabilitation of the Landfill
Groundwater Treatment System
802 West Shore Road
Port Washington, NY 11050
**ADDENDUM to SWMA Project No. SWMA-0002-2020: Rehabilitation of the Landfill
Groundwater Treatment System**

To Whom It May Concern:

The Town of North Hempstead Solid Waste Management Authority (the "Authority") is issuing this **Addendum** to the Request for Proposal ("RFP") for engineering, design and rehabilitation of the Landfill Groundwater Treatment System.

The RFP is modified as set forth in this Addendum. The Respondent shall take this Addendum into consideration when preparing and submitting its proposal.

Building Heating System:

- The building heating system should be evaluated to see if it will be needed to prevent pipe freezing during the winter, even with the improvements of the Groundwater Treatment System.

Submittal Deadline:

- The Proposal submittal deadline has been changed as noted. All submissions will be submitted by regular or overnight mail only. The Authority has extended the deadline to Friday, April 24th 2020.

Documents of the Groundwater Treatment System:

- The Authority will be mailing flash drives with drawings to the vendors who came to the Pre-Proposal meeting, or others that request it. Please contact Marshah-Reaff Barrett at barrettm@northhempsteadny.gov to provide your address to receive a flash drive.

End of Addendum
