

# The Town of North Hempstead Presents

During the Earth Day season, take advantage of this educational outreach program offered Monday through Friday at Town Hall or at your school.

Learn how your Town Government works by becoming an elected official and creating environmentally themed laws for the residents of the Town of North Hempstead.

The young residents of our Town will join the Town of North Hempstead Outreach Team for a Town Board meeting where they will gain an understanding of our Town history, what it is like to be an elected official, how laws are created, and how the decisions we make effect others.

The program can be tailored to your current lesson plan (the environment, government, history, community building, etc.) and is FREE of charge.

When scheduling permits, an elected official will meet with your group.

For more information or to schedule a date please contact:

Outreach Team

Department of Community Services

At 311 or (516) 869-6311
