RESIDENTS URGED TO CALL 311 TO REPORT ILLEGAL DISCHARGES INTO STORM WATER SYSTEM

Supervisor Bosworth is urging residents to call the Town's 311 Call Center to report any pollution that they observe entering the roadways and the storm drains. Pollution that enters the roadways is carried to the drains, and it discharges directly to Hempstead Harbor, Manhasset Bay and Little Neck Bay. For this reason, we also remind residents not to throw litter or cigarette butts on the road. Residents should be on the lookout for:

- Failing septic systems
- Illegal dumping of restaurant grease, oils or auto fluids
- "Dumpster juice" from dumpsters or trucks
- Wash water from commercial car washes
- "Mystery" fluids with strange colors, odors, bubbles, or opaqueness

Help us protect our waterways!

WATER CONSERVATION TIP

Although most people plant during the spring, the best time to plant is actually the fall when plants will require less water and will look better come springtime! Also, since the fall season brings wetter weather, consider using a rain barrel to collect and store rainwater runoff throughout the wet months. Call 311 to purchase your discounted rain barrel from the Town today!
