

Town of North Hempstead

Member of Board of Electrical Examiners

The Town of North Hempstead is seeking applications for membership on the Town's Board of Electrical Examiners.

Board members determine whether electrician license applicants meet criteria established by the Town Code, administer the Master Electrician Exam (written and practical) for persons wishing to become licensed electricians, review electrician license renewal applications to determine continuing competency; make recommendations to Building Department as to the issuance, modifications, revocation and suspension of licenses and issue standards for approval of inspection agencies and their employees to ensure the agencies are properly qualified to perform electrical inspections.

The Town is seeking applicants that are either a Master or Journeyman Electrician with minimum 10 years practical experience in the electrician trade. Candidates must be available to meet no more than four days per calendar month, depending on the Board's agenda.

Applicants should send a resume and cover letter to Robert Weitzner, Commissioner of Human Resources, by email at careers@northhempsteadny.gov. Any candidate recommended for appointment must be approved by the Town Board.
