Article IV Construction, Alteration, Demolition and Removal

§ 27-8 Certificate of appropriateness.

- A. Notwithstanding any other ordinance, code, rule or regulation concerning the issuance of a building permit, and whether or not a proposed activity requires a building permit, none of the following activities shall be commenced without the issuance of a certificate of appropriateness:
- (1) Any alteration which causes any material change in appearance of any feature of a building, structure, site or object in a designated historic landmark district or of a designated historic landmark.
 - (2) Any new construction within a designated historic landmark district.
 - (3) Any demolition or relocation of a building, structure, site or object in a designated historic landmark district or of a designated historic landmark.
 - (4) Consideration by the Board of Zoning and Appeals of an application for a variance or conditional use permit.
- B. The certificate of appropriateness required by this article shall be in addition to and not in lieu of any building, sign or other permit or approval that may be required by any agency having jurisdiction or authority.
- C. An application for a certificate of appropriateness shall be submitted to the Commission in such form and including such written information and such plans, elevations, drawings or other data as the Commission may require.
- D. Prior to the Commission reviewing any application for a certificate of appropriateness, the applicant shall be required to notify the owners of record as they appear on the tax rolls of the Town of property located within 300 feet of the boundary lines of the subject property, by certified mail, return receipt requested. This notice shall provide the substance of the application and the address designated by the Commission to which comments may be submitted to the Commission on the application. The applicant must submit an affidavit of mailing along with a copy of the notice and certified mail receipts postmarked by the U.S. Postal Service to the Executive Secretary. The Commission shall not act on any application until at least 30 days after the date of mailing of the notice.

- E. In reviewing an application for a certificate of appropriateness the Commission shall be limited to those portions of an application relating to the exterior architectural features.
- F. The Commission shall determine whether the proposed change will be appropriate to the preservation of the historic landmark or historic landmark district in view of the purposes of this chapter. In exercising this power, the Commission shall:
 - (1) With respect to historic landmarks, consider, in addition to any other pertinent factors, the historical and architectural value, the general appropriateness of the proposed design arrangement, texture and material of component(s) or sign(s) involved and the relationship thereof to other buildings, structures, sites or objects in the immediate neighborhood.
 - (2) With respect to historic landmark districts, consider, in addition to any other pertinent factors and those set forth above, the visual relationship between the property in question and existing buildings, structures, sites or objects either immediately adjacent to or in the surrounding area and the character of the district and the extent to which a new or altered building, structure, site or object would be harmonious with or incongruous to the historic and architectural qualities or distinctive aspects of the district.
- G. With respect to demolition or relocation in whole or in part of a historic landmark or building, structure, site or object in an historic landmark district, the Commission shall consider whether:
 - (1) The building, structure, site or object is of such architectural or historic interest that its demolition or relocation would be to the detriment of the public interest;
 - (2) Retention of the building, structure, site or object would help preserve and protect an historic place or area of historic interest in the Town.
- H. If the Commission approves an application which involves demolition or relocation of an historic landmark or structure or portions thereof within an historic landmark district, it shall find the building or structure or portion thereof is in such condition that it is not feasible to preserve or restore it; or that relocation is appropriate to preserve the historic landmark or structure. The Commission shall take into consideration the economic feasibility of alternatives to the application, and balance the interest of the public in preserving the building or structure or portion thereof and the interest of the owner in its utilization. In the event the demolition or relocation is approved, the property shall be cleared and left in a manner which will have no adverse impact on any adjacent properties or present a public danger.
- I. In making its determination whether to approve an application for a certificate of appropriateness, the Commission shall apply the United States Secretary of the Interior's

Standards for Rehabilitation and the Illustrated Guidelines for Rehabilitating Historic Buildings issued by the National Park Service, except that for applications related to historic landmark districts, such should be considered only a guideline.

- J. Where the Commission approves an application under circumstances where the permitted activity is likely to uncover or affect archaeological resources the Commission shall require reasonable efforts to identify, protect and preserve such resources. Where such protection and preservation is not feasible, the Commission shall nevertheless impose appropriate and reasonable conditions to insure that the archaeological resources are made accessible for a reasonable period of time to qualified persons.
- K. The Commission may permit a structure designated as an historic landmark, site, or located within an historic landmark district to be moved as an alternative to demolition.
- L. Nothing in this to chapter shall be construed to prevent **the following:**
 - (1) [ø]Ordinary maintenance or repair with like materials of similar quality, of any place, site, structure, object or building designated as an historic site, or any property located wholly or partially within the boundaries of an historic landmark district; or**
 - (2) The installation, replacement or relocation of generators or heating, ventilation and air conditioning (HVAC) units and appurtenances, provided that a permit is obtained from the Building Department and that such generators or HVAC units and appurtenances, shall be screened from adjoining lots and the public street by a completely planted visual barrier consisting of evergreen plantings.**
 - (a) All screening shall be maintained in a healthy condition. Any planting or landscaping which may become diseased or die shall be removed and promptly replaced with plantings similar in size and type.**
 - (b) The proposed use of fencing or other manmade screening to shield generators or HVAC units and appurtenances, is not exempt by this provision and shall require prior review by the Commission.**
 - (c) Nothing in this section shall be construed as to permit the exterior installation, replacement or relocation of appurtenant ductwork to the façade of a building or structure without prior review by the Commission.**
- M. New construction shall be consistent with the architectural styles of historic value in an historic landmark district. However, the Commission may approve the construction of buildings or structures which have a dissimilar architectural style to that of an historic landmark district, if the Commission determines that such new construction will be consistent with the goals of this chapter.

N. Approval.

- (1) Notwithstanding any other provisions of this chapter, the Commission shall approve an application for a modification of an historic landmark if the applicant establishes that:
 - (a) The land or improvement in question cannot yield a reasonable return if the proposed action is denied;
 - (b) The hardship of the applicant is due to unique circumstances of the property and not because of the general nature of the neighborhood;
 - (c) The proposed action will not alter the essential character of the area; and
 - (d) The hardship is the result of the provisions of this chapter and not created by the action or omission of the applicant.
- (2) To the extent possible, any approval granted on the above factors shall conform to the purposes of this chapter.

§ 27-9 Procedure for review of applications and plan.

- C. If the Commission issues a certificate of appropriateness, the Building Department shall review the application for a permit in accordance with its usual procedures and standards and shall make its determination based on same.
- D. Every owner or other person in charge of a landmark building, structure, site or object or a building, structure, site or object in an historic landmark district shall keep in good and proper repair the property and all portions thereof which, if not so maintained, may cause or tend to cause the property to deteriorate, decay or become damaged or otherwise to fall into a state of disrepair.

§ 27-10 Exemptions.

Within 60 days after such referral, the Commission shall submit its recommendations thereon to the Town Board and the referring agency. Failure of the Commission to submit such recommendations within said 60 days shall be deemed approval by the Commission.
