

Get started now!

Find out if you have lead in your water.

Call NYSDOH at 518-402-7650 or go to https://health.ny.gov/environmental/water/drinking/lead/free_lead_testing_pilot_program.htm, obtain a free lead test kit and test your water.

You are likely eligible for the grant if:

- NYSDOH Lead test indicates lead is in your water?
- You scrape your water service line and it turns shiny like a new nickel?
- Your house is built prior to 1939.
- You live in a Town of North Hempstead area.
- Combined adjusted gross household income is less than or not more than one of the below income lines?
 - 1 Person Household ≤ \$122,550
 - 2 Person Household ≤ \$140,100
 - 3 Person Household ≤ \$157,650
 - 4 Person Household ≤ \$175,050
 - 5 Person Household ≤ \$189,150
 - 6 Person Household ≤ \$203,100

Town of North Hempstead Lead Line Service Replacement Grant

The Program

one of the scraped areas turn shiny like a new nickel, its likely lead.

In efforts to reduce the amount of lead in your drinking water New York State Department of Health (NYSDOH) awarded the Town of North Hempstead grant funding for full or partial replacement costs of your homes lead water service line

located under-ground between the public water main and the water shut off valve. Typical eligible costs under the grant may include engineering, application/permit fees, contracting, and related property restoration costs. Up to \$7,000 of grant assistance and sometimes more can be available.

Program Priorities and Guidelines

- Available to households in the Town of North Hempstead built prior to 1939 having water service lines that test or are viewed positive for lead.
- Assist households occupied by pregnant woman, children ages 6 or under and those who have disabilities.
- Assist households that have 150% AMI adjusted gross household income. Household income is determined by adding-up the adjusted gross income of each person in the household who are over 18 years of age. Full time student income is exempt from the combined income calculation.

Program Process

- Owner obtains free lead test from NYSDOH and test their water.
- Owner submits grant application and required household documents.
- CDA representatives confirm grant eligibility, presence of lead, develop a list of work and owner accepts the list of work.
- CDA representatives assist owner with hiring licensed contractors to perform the work and provide work agreements.
- CDA and Owner monitor and confirm work is satisfactory.
- CDA monitors close out of the work with the Town, Water Department owner and contractor and pays contractor(s).

Protect your loved ones. Test your water and scrape your water service line. If you think lead exist and you meet the guidelines apply now.

I/We want to participate in the Lead Service Line Replacement Program (the "program"). I/We understand that submitting this application does not guarantee the program can be granted and that this application and related household documentation will be used to determine eligibility to the program only. Whether or not I/We are provided the program will depend in part on the program priorities and guidelines, number of requests received before me/us and funding availability. I/We understand that the program is designed to reduce the presence of lead in water, however, other conditions may contribute to presence of lead that this program may not address. I/We understand that Section 1001 of Title 18 of the U.S. Code makes it a criminal offense to make willful false statements or misrepresentations to any Department or Agency of the United States as to any matter within its jurisdiction. I/We understand that provision of false information will disqualify me/us. And I/We have verified my/our household income by providing copy of most recent tax returns and will provide other documentation, if required, and will enter into an agreement which includes a description of the work, grant payment information and general conditions.
